The purpose of this statement is to address the financial issues facing the district.

The Seekonk school committee recognizes that the current economic landscape has placed a hardship on all residents of the Town of Seekonk. In anticipation of further reductions to the budget, Superintendent Meyer and her staff are working diligently to conserve district resources and limit spending.

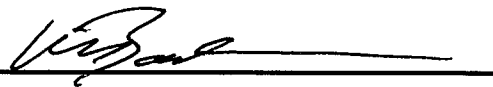

The committee wants to assure all stakeholders that the district is proactively examining and reviewing both operational and personnel expenses, while continuing to provide a quality education for our children. We recognize that difficult choices require thoughtful deliberation and strong leadership. Only through encouraging meaningful dialogue with both management and faculty will the district emerge stronger from this economic period.

The committee will continue to promote a constructive atmosphere with professional demeanor. As the district moves forward into the New Year the impact on our budget from state funding will become clearer and we will adapt. Decisions will not be rushed, based on emotion, or outside influences. We remain open to suggestions and emphasize a collegial approach in reaching resolutions to our budgetary issues.

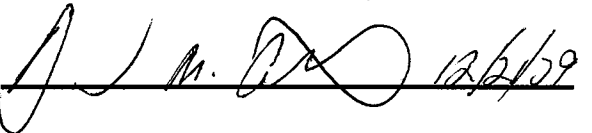

As always should you have any questions or concerns do not hesitate to contact us and a reminder that the district website www.SeekonkSchools.org contains committee members contact information, both audio and streaming video of the committee meetings, and informational packets from each meeting, including monthly budgetary updates.
